

## Backhoe 210

**Electric Machine Compatible**

Avant backhoe 210 designs main focus was user friendliness and straight forward construction. Backhoe 210 is slightly larger than its smaller sister backhoe 170, which makes it more versatile and gives more digging depth.

Boom movement speeds are steplessly adjustable, which makes operation easier also for inexperienced users. To facilitate the digging the frame of the backhoe is as low as possible, which gives unrestricted visibility to the work area.

- ✓ **A powerful, strong and compact backhoe**
- ✓ **Easy to connect and disconnect to Avant**
- ✓ **Smooth movements with precise control valve, easy to operate**
- ✓ **Uncomplicated and economical backhoe**
