

Mini digger

Electric Machine Compatible

Avant mini digger is an efficient solution for small digging operations where maximum digging depth of 1200 mm or 1500 mm is enough and digging is not an everyday work. It mounts directly on the quick attach plate of the loader and is operated with the auxiliary hydraulics control lever, or with the buttons of the joystick if fitted. Dumping to the side happens by turning the steering wheel of the Avant.

Mini digger 150 is equipped with the S30 bucket quick attach system (same as on backhoe 260), which makes changing of bucket fast and easy - and the bucket can also be mounted pointing forward if necessary. Bucket tilt adapter for mini digger 150 is available as an option.

- ✓ **Efficient and economical solution for smaller digging jobs**
- ✓ **Very fast to mount on Avant**
- ✓ **Simple and light to transport from job site to another**
- ✓ **High unloading height**
- ✓ **Material can easily be transported further away**

Option:

Bucket tilt adapter (Mini digger 150) A35320 (not when thumb grab A444174)

Thumb grab (Mini digger 150) A444174 (not when bucket tilt adapter A35320)
