

# Tree boom

Electric Machine Compatible

Tree boom is a simple and practical attachment for handling bigger tree trunks, pipes etc. objects which need to be lifted and placed with accuracy. It is otherwise the same attachment as the Avant big bag lifter, but the manually adjustable telescoping boom doesn't have a hook – instead the boom is straight and equipped with a pin for attaching lifting slings. This allows, for instance, lifting and planting bigger trees without the risk of damaging them. The frame design with side supports prevents the objects from swinging sideways.

Tree boom is useful in nurseries for planting trees, for arborist jobs like removing bigger trunks from yards and gardens, and also for utility jobs like setting pipes in trenches etc.

- ✓ **Easy way of handling tree trunks, planting bigger trees, laying pipes etc. objects**
- ✓ **Manually adjustable telescoping boom, can be adjusted in four different heights between 1135 – 1685 mm**
- ✓ **Side supports prevent sideways swinging of the objects**

Pin height	1135 – 1685 mm
Width	1100 mm
Max. load	900 kg
Weight	60 kg
